2 - What has been particularly effective about Francesco Ferlenga's approach to teaching in this course?

Response Rate 8/88 (9.09%)

- Francesco was available during and after section. He was helpful at clarifying materials on problem sets, even those that had been released earlier that day. His availability and ability to answer clarifying questions made him effective.
- I like the way we stepped through things in section and answered all the questions from students about specific problems.
- Very kind and charismatic. Very helpful during office hours and patient.
- He explained the problems clearly.
- Was knowledgeable about the topic and always hosted informative sections.
- Very knowledgeable about the surrounding explanations needed for full understanding.
- Not sure.
- Thought his sections were very well taught.

3 - What specific advice would you have for Francesco Ferlenga about changes that would enhance your learning?

Response Rate 8/88 (9.09%)

- The sections were not very engaging to me because the material used was essentially the old problem set, but with slightly different numbers. I felt sections occurred too late in the week to be useful and didn't do much to help my learning since the course was already very easy.
- Francseco could work on his handwriting, kind of confused in section. Also he should stick with the notation on the section handout. Some times he would use his own notation and I would get confused.
- Nothing! Great job, thank you for all the help this semester.
- None
- None. He was really great!
- Sometimes, he talked a bit fast and was hard to understand.
- None.
- None
